WORK EXPERIENCE

Systems Architect & Forensic Scientist | Institute of Risk and Safety Analyses | Woodland Hills, CA | February 2025 – Present

- Manage and modernize computer systems, network infrastructure, and IT operations supporting forensic engineering.
- Develop software tools, maintain databases, and implement cybersecurity improvements to optimize engineering workflows.
- Support forensic accident reconstruction through drone operations, 3D modeling, simulations, animations, and digital forensics.

Data Analyst Intern | Planet Bids | Studio City, CA | August 2019 – December 2019

- Managed and analyzed database records to support internal system
- Automated data processing tasks using Python

Software Engineer Intern | Seven Smarts LLC | Yerevan, AM | June 2019 – July 2019

- Wrote SQL queries and produced data analytics reports for two startup clients
- Collaborated with software engineering team on database operations

Software Applications & Design Intern | TUMO | Yerevan, AM | June 2019 – July 2019

- Taught Java course | Assisted graphic design team workflow

EDUCATION

Los Angeles Pierce College September 2025 – Present

Physics & Electrical Engineering GPA: 4.00 / 4.00

University of California, San Diego September 2020 – June 2024

B.S. Data Science

Warren Provost Honors, Major GPA: 3.45 / 4.00

TECHNICAL PROJECTS

View technical projects at https://chris-derman03.github.io

Chief Systems Engineer | NASA Robotics Competition | Woodland Hills, CA | June 2026

- Led software and design/research efforts for rover system
- Developed and deployed primary mission software
- Coordinated integration between software and hardware design

SKILLS

Hardware – VHDL | Verilog | KiCad Altium | AutoCAD | Computer Architecture | Circuit Analysis Embedded Systems | Raspberry Pi Arduino

Programming – C/C++ (5 years) Python (5 years) | SQL (2 years) | Java (1 year) | TypeScript (1 year) | JavaScript | R | ARM32 Assembly MATLAB

AI/Machine Learning – TensorFlow | PyTorch | Keras | Neural Network Architecture | Computer Vision | LLMs

Webdev – Next.js | React TypeScript

General – Git | Tableau | PostgreSQL Docker | API Programming | Web Scraping | UNIX | AWS | Computer Network & Systems Design | Digital Forensics | Cybersecurity | Cloud

CERTIFICATIONS

CDR Technician - Collision Safety Institute

sUAS Remote Pilot - FAA

PROFICIENT LANGUAGES

English, Armenian
